

Southern California Hospice Foundation

Share your kindness and joy with others!

Do you belong to a group that is looking for a holiday season project to help someone in need (churches, businesses, schools, scout troops and other community groups)? Please considering adopting a hospice family for the holidays!

This program provides assistance to terminally ill patients and families, who have limited financial resources or are in need of some good old fashioned holiday cheer! The recipients of this program are identified by members of the hospice team in your local area.

You can provide assistance to a patient and their family by providing:

- Gift cards (Walmart, Target, grocery stores or gas stations) for families to use at the holidays and throughout the year. Gift cards in any amount make a difference!
- Gift cards to Boston Market for a turkey meal
- Bedside Christmas trees
- Warm fuzzy socks
- Lap blankets
- Donations earmarked for the patient assistance program.

In some cases, a specific wish list will be provided.

Since many of the patients and families served have compromised immune systems, all donated items must be new.

Families appreciate the food and gifts on a much deeper level because they may be celebrating their last holiday with their loved one.

Please join us in our great mission of caring for others at the end-of-life!

Call us at 877-661-0087 and get involved today.
